### **DETAILED ACTION**

Applicant's Amendment filed 05/06/2005 has been reviewed and placed of record in the file.

#### **Election/Restrictions**

1. Claims 1-32 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 33-45, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Process claims 33-45 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

#### ***Allowable Subject Matter***

2. Claims 1-45 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or render obvious a conductive memory device and a method of manufacturing thereof with all exclusive limitations as recited in claims 1, 27, and 33, comprising a memory element including a first electrode; on the first electrode either: a first conductive metal oxide layer, a second conductive metal oxide layer, and a third conductive metal oxide layer, or: a bottom conductive metal oxide layer and a top conductive metal oxide layer; and a second electrode on the third conductive metal oxide layer or on the top conductive metal oxide layer; at least two of the first, second, and third conductive metal oxide layers comprising conductive

metal oxides that are not identical to each other and at least one of the top and bottom conductive metal oxide layers being doped with a dopant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
